REVIEW — MARCH 1974

DOCUMENTS OF THE AMERICAN REVOLUTION, 1770-1783,
ed. by K. G. Davies. Irish University Press, 1973 (c1972). 3v tab
(Colonial Office series) v.1, 39.00, ISBN 0-7165-2086-9; v.2,
32.50, ISBN 0-7165-2087-7; v.3, 32.50, ISBN 0-7165-2088-5;
set ISBN 0-7165-2085-0

Contents — v.1: *Calendar, 1770-1771*; v.2: *Transcripts, 1770*; v.3: *Transcripts, 1771*. A "must" purchase for all graduate research libraries, and better college libraries will also want to have them available for undergraduate students doing research papers. The cost of the entire series (projected at 18 volumes) will be \$750.00, but the unusual nature and value of the contents set them apart from the reprint projects to which they may be inaccurately compared. The complete set will survey and sample the British Colonial Office records, 1770-83. One series will calendar all letters surviving in the Colonial Office records, a second will transcribe selected letters in full, and the third will comprehensively index names, places, and subjects. The first three volumes cover the years 1770-71 and demonstrate the potential worth of the entire series. Editor Davies provides a highly professional calendar to the complete documents for those years (v.1). The documents transcribed in v.2 and 3 are selected with care and historical imagination. The index is exceptionally well done. The first volume immediately becomes the best existing guide to Revolutionary documents in the Public Record Office, while the two volumes of transcripts are now the richest printed sources for the British side of the Revolutionary controversy in 1770-71. If the series retains this level of quality, it will be one of the two or three most important published sources for the history of the Revolution. One hopes Bicentennial funds will be available to place these volumes in all significant libraries. The editor and publisher deserve the thanks of all teachers and scholars of the era of the American Revolution.

BRI covers every review appearing in 235 magazines and newspapers. It covers all the major literary and educational periodicals. It also provides access to the more specialized media which yield useful insights on books dealing with arts and crafts, business and economics, religion and philosophy, minority affairs, and other contemporary concerns.

Each year BRI covers 65,000 reviews of over 35,000 books.

THE BIMONTHLY PUBLICATION

\$45 per year. New subscribers receive an 8½" x 11" loose-leaf ring binder. Published February, April, June, August, and December. (For convenience in using BRI, the April, August, and December issues cumulate the previous issue.)

ANNUAL CUMULATIONS

Bound volumes cumulating the contents of a year's issues of BRI are prepared immediately after publication of the December issue.

- Bound volumes for 1965, 1966, 1967, and 1968 are in print, priced at \$30 each.
- Bound volumes for 1969 and later years are \$45 each, available as follows:
1972 cumulation: in print
1973 cumulation: ready June, 1974
1969, 1970, and 1971 cumulations: in preparation; may be ordered now for future delivery

A NOTE ON THE HISTORY OF BRI

BRI was first inaugurated in 1965 as a periodical and continued through 1967. Clothbound cumulations were published after each year's December issue.

In 1968, the periodical was suspended, due to mechanical difficulties and inadequate customer support. A clothbound cumulation was published for 1968, but no further issues or bound volumes appeared until 1972.

The suspension caused a flurry of queries from libraries who recognized BRI as a "basic reference tool" (to quote from CHOICE). As time passed, the demand for BRI increased.

In 1972, Gale resumed publication of periodical issues. At the same time work commenced on retrospective indexing to fill in for the missing years.

The 1972 cumulation is in print. The 1973 cumulation is scheduled for early publication. Bound volumes for 1969, 1970, and 1971 are being worked on.

AMERICAN CULTURAL HISTORY ON MICROFICHE

american autobiographies series I 1676-1850

*Based upon the Bibliography of
American Autobiographies,
compiled by Louis Kaplan, et al.*

Copied from original volumes in more than 50 libraries, the microfiche program includes the autobiographies of nearly 400 persons living and traveling in America during these important years of our history. The autobiographies are the memoirs and narratives of numerous ordinary and not so ordinary people: doctors, clergymen, alcoholics, travelers, criminals, slaves, reformers, and frauds.

Each entry contains an eye legible title fiche preceding the autobiography itself. The title fiche is suitable for copying as a catalog card. Catalog cards are also available.

The program is available as the entire Series I:

1676-1850 with an index \$2,200.
or in three segments, each \$750.
Segment A: 1676-1825 includes approximately 140 entries
Segment B: 1826-1841 includes approximately 119 entries
Segment C: 1842-1850 includes approximately 136 entries

THE MANUFACTURER'S CLAIMS:

The [reader] has no complicated controls or touchy adjustments; maximum ease of operation is built into the reader. Just insert the fiche in the precision holding and transporting mechanism, flip the switch, adjust focus, and scan.

LIBRARY TECHNOLOGY REPORTS:

The design of the reader does not provide for a page indicator grid. The platen moves awkwardly and binds, especially when moving from side to side.

The user must reach to the left side of the reader and move a short arm back and forth to focus the image.

None of the controls are labeled. The user must experiment with the various levers and handles to learn how to use the reader.

The bracket holding the platen handle allows the film to catch between the bracket and glass, which can tear the film if the user is not careful.

AVAILABILITY AND CONVENIENCE

Musts In Obtaining Information From Periodicals

BUT MAYBE:

Your binding budget has been reduced, making it difficult to bind all the important magazines.

Your staff time is not enough to do an in house binding or economies of doing it yourself only prove false.

Your users find microfilm costs them the hard-copy convenience of working with more than one journal at the same time.

Your number of readers and reader printers pose limitations when demand is heavy.

DON'T GIVE UP YET:

Templok® Storage Binders with their patented locking device can help you keep your magazines together for easy access as well as protect them against loss. Best of all, when materials are removed for binding or discarding, the binders are reuseable.

Something Special for Librarians.

ACTS

ACTS is our way of saying Acquisitions, Cataloging, Technical Systems. In a word, it sums up a very special library service which offers you the quickest, most comprehensive and accurate way we know to catalog, verify and acquire books.

ACTS is a service that lets you catalog, process, order books in seconds.

ACTS is the only program on the market today that offers this quality and quantity at a cost of \$840.

ACTS gives you a data base of over 610,000 authoritative catalog records. Included are English language titles, 38,000 foreign records, retrospective titles, titles listed in BCL and BJCL, and other important bibliographies.

We'd like to tell you more about the Richard Abel Company ACTS program. And we'd like to demonstrate exactly what we mean when we say, we have something special for librarians. Just mail the coupon or phone 800-547-3551 toll free.

ACTS is an exclusive service which provides a continuous updating of records in quantity and quality. Each week our catalog base is updated with over 2500 new titles. Weekly and quarterly cummulatives are also provided.

ACTS is a simplified microfiche service which allows you to order cataloging, technical processing services or books. All you do is mail us the Abel identification number appearing on the fiche card. We'll produce catalog cards to your format and make sure the books you order are the ones you specified.

ACTS provides a tailor-made service for large or small libraries.

ACTS reduces your paperwork to an absolute minimum.

December publication planned for beginning of
four-volume guide to first editions of 1,000 U. S. authors

- Modern scholarship and contemporary resources used to compile definitive record far exceeding scope of Merle Johnson's *American First Editions* and similar works
- Brucoli and Clark are General Editors, assisted by fifty specialists and large advisory board
- New series will be handsomely typeset and bound, with portraits of each author, numerous facsimile pages, and other illustrations

First Printings of American Authors, recording the first book appearances of the works of over 1,000 important authors from Colonial times to the present, has been announced by the Gale Research Company, Detroit.

More than 150 of the expected 250 bibliographies in the first volume have already been completed, and publication is tentatively being planned for December, 1974. Succeeding volumes will appear six to nine months apart.

First Printings includes both early and modern authors not in Merle Johnson's *American First Editions* as well as greatly enlarged and updated listings for those Johnson mentioned. A unique feature will be the inclusion of *English* firsts.

Coverage in the first volume ranges from Henry Adams, Auchincloss, and Auden through Thoreau, Vonnegut, and Whitman. Subsequent volumes will have equally broad coverage. A cumulative index will appear in successive volumes.

Editors of *First Printings* are Matthew J. Brucoli, professor of English, University of South Carolina, and C. E. Frazer Clark, Jr., noted collector. Assisting them are more than fifty widely known bibliographers, collectors, curators, librarians, book dealers, and other book world figures who have special expertise and resources which enable them to prepare authoritative reports on their subjects.

• Illustrations supplement bibliographies

The basic part of each author's listing will be, of course, compact bibliographic descriptions of each of his books as first published in both America and England. Each listing will include a portrait of the author. In addition, facsimile title and text pages, photographs of bindings, etc., will be used where appropriate to highlight unusual features of a book or to illustrate a particularly important work.

The set is being carefully designed in a handsome format, 8½ x 11 inches in size, and will be composed, printed, and bound in the best traditions of bookmaking.

• 10% Prepublication Saving Offered

The price of *First Printings of American Authors* is \$140.00 for the four volumes. A special prepublication discount of \$14.00 will be allowed, however, reducing the price to \$126.00.
